

company profile

Interior Restoration, Inc. of Cold Spring Harbor

Founded in 2002 to renovate historic homes on Long Island and to build new structures that are in keeping with the architecture of the area.

OUR MISSION:

At Interior Restoration, Inc. we are committed to preserving historic architecture while safeguarding the natural environment. Specializing in restoring and remodeling homes for people with impeccable taste and highly individualized needs, we build extensions, dormers, kitchens, bathrooms, basements and decks.

Our services also include excavations, septic systems, footings, foundations, masonry, framing, roofing, siding, insulation, sheetrock, woodwork, cabinetry countertops, painting, home theatre, whole house audio, intercoms, phone systems, and security systems. We are experts at garden design and outdoor living projects and have custom-built garden bridges, arbors, window boxes, pergolas and garden benches as well as marble-top tables with handmade architectural house part bases.

Our company incorporates green materials, low VOC paints, and energy efficient appliances in our projects. Interior Restoration has an established relationship with Habitat for Humanity ReStore

where we donate appliances and usable materials that we remove during demolition. We always give special attention to tailoring living spaces to accommodate growing families, customers with handicap accessibility needs and aging-in-place projects.

Interior Restoration supports the Long Island community by donations to SPLIA, The Freedom Center which provides daycare and education for workers' children in Huntington Station and Save the Children. IR is forming a foundation to help ESL students attain higher education.
